PROFESSIONAL SUMMARY

I am a Computer Science student and UI/UX designer who believes great design is where empathy meets logic. With hands-on skills in Figma, wireframing, and prototyping — backed by real coding knowledge — I bring both the creative eye and the technical mind to every project. I love turning complex problems into clean, intuitive experiences and I thrive in collaborative environments where ideas are big, feedback is honest, and the work is purposeful.

KEY SKILLS

UI/UX Design | Figma | HTML & CSS | Canva | Design Thinking | Prototyping & Wireframing | Microsoft Excel |

SOFT SKILLS

Communication | Problem-Solving | Team Collaboration | Dependability | Attention To Detail |

INTERNSHIP

ILIFE Technologies — UI/UX Design Intern

- Completed a UI/UX Design internship with hands-on experience in Figma, FigJam, wireframing, prototyping, and design tools.
- Worked on real-time design tasks and learned end-to-end UI/UX workflows and design principles.
- Improved understanding of user-centered design and collaborative product development.

PROJECT

Fuel Delivery Application

- Developed a frontend-based Fuel Delivery Application using HTML, CSS, and JavaScript.
- Designed an intuitive user interface that allows users to request fuel delivery, select fuel type, and enter delivery location.
- Implemented local storage to store and manage user orders, delivery details, and application data without a backend server.
- Built with a focus on user-centered design principles ensuring a smooth and responsive experience.
- **Tools & Technologies:** HTML, CSS, JavaScript, Local Storage, Claude AI
